About me

Motivated and detail-oriented professional with strong expertise in web development and machine learning. I design and build responsive, user-friendly websites and applications using modern technologies, ensuring clean code and excellent performance. Alongside this, I develop and experiment with machine learning models, applying data-driven techniques to solve problems and enhance applications with intelligent features. I'm eager to contribute my skills to a forward-thinking team and continue growing as a developer and ML practitioner.

Projects

C++:

1. "Applied C++ to build a Cafeteria management system using OOP principles and file handling."
2. "Applied C++ to build a Hotel management system using DSA principles and file handling." Objectives Skills Qualifications Education Projects
3. "Applied C++ to build a Guess Application using DSA principles."

Web-Development:

1. "Applied HTML-CSS-Js to build a Nike Clone app."
2. "Applied HTML-CSS & JAVASCRIPT build functioning Spotify clone",
3. "Applied HTML-Tailwind CSS-React build a Todo App".
4. "Applied HTML-TAILWIDCSS build a responsive Twitter Clone".
5. "Applied HTML-Tailwind CSS-React build password manager."

PYTHON:

1. " Applied Python to build a Budget Management System. With GUI Tkinter".
2. " Applied Python to build a water Notification and YouTube video downloader"

Certifications

Cerfication in AL By Hp.

Certificate of Completion

abaad adil

AI for Beginners

Certificate of Completion

abaad adil

has successfully completed the HPLIFE online course AI
for Beginners

By completing this course, the above-named student has gained a basic understanding of the impact of artificial intelligence (AI) on the technological landscape. They have learned about key AI concepts and their applications, discovered why data is important to AI, how the technology is being used in businesses, and gained an insight into its ethical implications.

Presented 8/6/2025
